

Rattanakosin produces potteries that are hand crafted by skilled craftsmen. We aim to maintain the legacy of Ratchaburi and of Thailand as these craftsmen skills gets lost over time.

We want to add a **Modern** touch to the potteries while preserving a unique **Traditional** design.

Custom potteries can be made to special request by customers, with sizes larger than two meters in height.

Globally exported product, mainly in Europe and America. With almost 50 years of experiences, we have been recognised for our outstanding design and craft, and was awarded 'Outstanding Export Awards 2006' and also received a 5 star OTOP recognition from Ministry of Commerce.
